## Member Survey

*Thank You!*

ATRF would like to thank all members who took the time to complete the plan member survey in March. The survey focused on how satisfied plan members are with ATRF's customer service, communications, and other tools and services.

## Current Contribution Rates

*will remain unchanged this September*

The Plans' funded status continued to improve in the last fiscal year as a result of good investment returns and additional contributions made to fund the deficits. Unfunded liabilities are coming down and funded ratios are continuing the slow, steady climb to fully funded status, as planned to be reached in 2027. While the results from the last fiscal year are encouraging, the Board remains ever mindful of the many challenges facing pension plans.

Contribution rates were reduced effective September 1, 2016. According to the Plan Actuary, the current contribution rates remain adequate to fund the Plans and will therefore remain unchanged as at September 1, 2017.

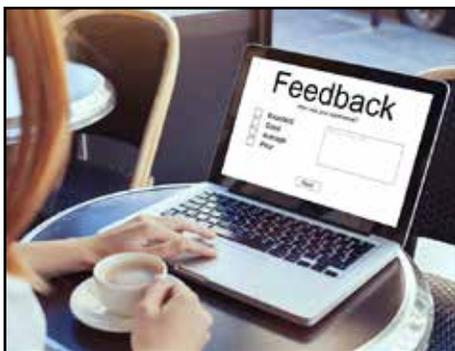

To see the contribution rate tables, go to page 2.

**To know more about the Plans' financials, read the 2016 Annual Report available on [ATRF.com](http://ATRF.com)**

## Member Survey *(...cont'd from front page)*

The survey was sent to over 52,000 plan members, including active, retired and inactive members. We had amazing participation (30.6% response rate) and terrific input, suggestions and ideas that we can put into action.

ATRF conducts regular surveys of plan members to collect feedback to tell us how we're doing. The feedback we receive is used to help us identify areas where we can improve your experience as a plan member. The responses are being evaluated closely and we will provide key findings in the 2017 Annual Report.

If you have a comment or suggestion on ATRF services, you do not have to wait for a survey. We are always interested in feedback from members.
