ELIGIBILITY REQUIREMENTS

- You must have pensionable service with ATRF and with one of the above listed participating pension plan authorities.
- You must have begun employment with the importing pension plan on or before **January 30, 1978**.
- You must have ceased to occupy a position with the exporting pension plan and you must not be an active member of the exporting pension plan.
- You must not be in receipt of a pension from either the importing or exporting pension plan.
- You must be applying to receive pension from the importing plan.

WHEN ATRF IS THE IMPORTING PENSION PLAN

- You must have at least five years of Pensionable Service with ATRF.
- Your combined Pensionable Service with ATRF and the participating pension plan authority must meet ATRF's minimum service requirements for pension eligibility.
- You must have at least one year of Pensionable Service with ATRF after the last year of Pensionable Service being transferred from the participating pension plan authority.

PROCESS & DETAILS ABOUT THE TRANSFER

- You must send a completed 1974 Reciprocal Transfer Agreement Application form to both the importing and exporting pension plans.
- The money transferred from the exporting pension plan represents twice your contributions in the exporting plan, plus interest, or, if you are eligible for a pension from the exporting plan, the value of your pension.
- In a transfer to ATRF, the years of service under the exporting pension plan are used to determine your eligibility for pension, and are also used in the pension calculation.
- ATRF determines its transfer requirements by calculating the pension and determining the value for each year of service being transferred.
- If the amount available for transfer by the exporting pension plan is less than the amount requested by the importing pension plan, the importing pension plan will credit you with a portion of the service. You will have the opportunity to purchase any shortfall in service. If you decide not to pay the difference, your pensionable service will be reduced proportionately.

ONCE THE TRANSFER HAS BEEN COMPLETED

- The service is no longer to your credit with the exporting pension plan, and no benefit is payable.
- The benefit available to you from the importing pension plan will be paid according to its provisions.
