## Build #553 Update

## **Build Update**

NOTE: It's important to ensure that when performing any ATRF-CS updates that:

- ATRF-CS is not running during the update,
- All update files are downloaded from the ATRF-CS site manually and that the update files are run from within the folder where ATRF-CS is installed to,
- AutoUpdate.exe is run as an Administrator.

Open the folder where ATRF-CS has been installed (C:\Program Files (x86)\ATRF\ATRFCS in many cases.) Open a web browser and browse to <u>http://atrfcs.atrf.com</u> Download the **ATRF-CS Update Utility** and **Current ATRF-CS Build** and place into the open folder.

ATRF-CS Software Downloads

Download the ATRF-CS Server Installation Package here.

Download the ATRF-CS Workstation Installation Package here.

Download the ATRF-CS Update Utility here.

Download the Current ATRF-CS Build here.

Download the Current ATRF-CS Rate File here.

Download TeamViewer 6 here.

NOTE: If your browser does not prompt you for where to save the files, you will need to manually copy **AutoUpdate.exe** and **CS\_Update\_553.trf** into the open folder.

Right click on *AutoUpdate.exe* and select *Run as administrator*.

## The Build should now be #553

From the "Maintenance" menu, choose "View All Rates". The rates should now have new expiry dates. If not, then AutoUpdate.exe was not Run as administrator, or the ATRF-CS application was open. Please retry the update as administrator.

Sample rate:

	Parameter Name							
	Salary Cap							
Yearly Maximum Pensionable Earnings
